KEEP FLAT – DO NOT FOLD

INSTRUCTIONS

This calendar is used to record when you bleed and how much bleeding you have.

This information is important to learn more about how women should take their hormones in the future, so please be as exact as possible. You should write in this calendar each night. If you try to write in several days at once, you may not remember what really happened on those days. Keep the calendar by your bed and write in it before going to sleep. This will help make it a regular routine for you.

Please remember to keep the calendar flat, clean, and dry at all times. It should not be folded, because it needs to be read by the computer when you bring it to your next visit. You can carry it in your WHI Medications Bag.

You can record up to 9 months in this calendar. Write the current month and year in the spaces above each chart. Each night fill in one of the ovals under the current day. The oval you fill in will depend on how much bleeding you had (spotting, moderate, or heavy). Leave the ovals blank if you had no bleeding that day. The next page has a sample month filled out. The codes below can help with your bleeding estimates:

Codes:

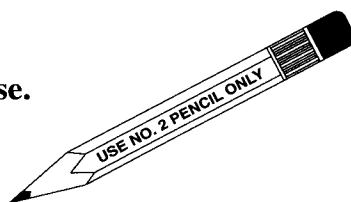

- Spotting to light bleeding** - 1 to 3 pads each day. Less than a regular period or menstrual flow.
- Moderate** - 4 to 7 pads each day. About the same as a regular period or menstrual flow.
- Heavy** - 8 pads or more each day. More than a normal period or menstrual flow.

You can use the "Notes" page to record any symptoms or questions that you want to remember for your next clinic visit or phone call.

Thank you for taking the time to fill this out.

MARKING INSTRUCTIONS

- Use a No. 2 pencil only.
- Darken the oval completely next to the answer you choose.
- Erase cleanly any marks you wish to change.
- Do not make any stray marks on this form.

CORRECT MARK

INCORRECT MARKS

- For questions where you write in a number, write the number in the box provided. Then mark the corresponding oval to the right.

Example: If the date is May, 1994:
